## **DETAILED ACTION**

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest either in singularly or in combination the following limitations and other elements in the claims. References Theil et al. (US 6,018,187), Goetz et al. (US 6,436,735), Downey et al. (US 6,717,270), and Lin et al. (US 6,798,073) do not disclose:

- A power bus located over the metallization interconnection system, the power bus comprising an alloy of aluminum and copper, and further where the power bus includes a first contact pad region configured for connection external to the integrated circuit device that is in contact with the first interconnect feature, and a second region in contact with the second interconnect feature.
- A passivation layer overlying at least a portion of the first contact pad region of the first contact pad region and protect the second region.

Therefore, the above references do not disclose the claimed invention of present application and claims 48-53 and 55 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
